

PRESS RELEASE

RISPOSTE TURISMO: Adriatic Sea Forum awarded as "Adriatic Nautical Project of the Year".

The award ceremony took place on the occasion of the gala dinner of Internautica, the International Boat Show of Portorož (Slovenia).

Best Adriatic nautical project of the year. This is the recognition appointed to the Adriatic Sea Forum – yearly international and itinerant event devoted to maritime tourism in the Adriatic Sea (cruise, ferry, sail & yacht) that took place this year in Trieste on 21st and 22nd March – on the occasion of the gala dinner of Internautica, the International Boat show of Portorož (Slovenia), at its 18th edition.

The event, created and organised by Risposte Turismo – research and consulting company active throughout the tourist macro-industry, founded and led by Francesco di Cesare – had been held this year in partnership with TurismoFVG and in cooperation with PromoTrieste and Trieste Terminal Passeggeri. Adriatic Sea Forum has been selected by an international jury chaired by Jurij Korenc – President of IFBSO, International Federation of Boat Show Organisers and founder of Internautica – and composed by directors of specialised magazines, architects and nautical designers.

The award, given to Risposte Turismo management, proves the quality of the event, that managed to unite at its first edition more than 40 speakers coming from Albania, Croatia, Greece, Italy, Montenegro and Slovenia and more than 250 delegates representing ship owners, cruise and ferry terminals, marinas, ports, charter companies, tour operators, shipbuilders and travel agents.

The recognition appointed to the Adriatic Sea Forum honors every year a project that distinguished itself for innovation, development and promotion of the nautical sector in the Adriatic area.
